

Productivity Option: The Autobag® Support Shelf – Ensures quality seals for heavy products

Productivity Options are often a cost-effective way to optimise overall packaging system performance. Automated Packaging Systems offers a variety of basic Productivity Options that are designed to increase packaging speeds, improve ergonomics, or efficiently tie-in to existing production lines.

The Support Shelf is designed to gently cradle heavier products in the bag to ensure a quality seal. The Support Shelf is fully adjustable to accommodate a variety of bag sizes, and automatically cycles with the bagger for continuous bag indexing and loading. Job set-up, recall and changeover are fast and easy using the operator-friendly AutoTouch™ Control Screen.

User Benefits

- Gently cradles heavier products in the bag to ensure a quality seal
- Automatically activates during the bag loading and sealing process
- Easily adjustable for a variety of bag sizes
- Can be disabled for applications where it is not required
- Sets up easily using the AutoTouch Control Screen
