

Spare Parts Kits – AB 255™ Vertical or Horizontal Bagger

How much does downtime cost your business? Maintaining an inventory of spare parts on-hand could prevent valuable lost production time and keep your packaging system operating at peak performance.

At Automated Packaging Systems, we manufacture reliable, high-quality bag packaging equipment that is designed for maximum productivity and uptime. For every bagging system we build, a variety of Spare Parts Kit options are available to support on-site service and preventative maintenance requirements. Our comprehensive Spare Parts offering makes it easy for you to source and secure the genuine Autobag[®] parts you need, when you need them – without the potential for alternate source substitution, obsolescence or out-of-stock issues that could arise with a third-party provider.

Spare Parts Kits are generally available in three levels: Basic, Intermediate and Major. Choose the level of protection that best suits your operational requirements.

- Basic: Includes the most common wear items to conduct simple, on-site repairs and preventative maintenance.
- Intermediate: Includes the components of the Basic Kit, along with additional items for more thorough protection against downtime.
- Major: Includes the components of the Intermediate Kit, along with additional items for optimum protection in high-productivity operations that require immediate repair.

To learn more, or to place an order, please call us on 01684 891400 or freephone 0800 731 3643

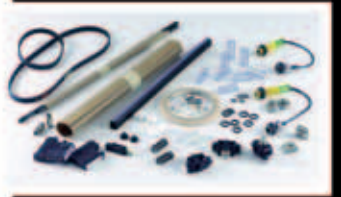

Systems Advantage™ Programme Members qualify for spare parts and service incentives that enhance the overall value of their packaging operation. Ask your APS representative for details.

Basic Spare Parts Kit, PI 412c

Part Number	Sub Parts	Description	Quantity
595213A3KIT	595311A1	TEFLON, MODIFIED FOR AB 255	1
