

# Autobag<sup>®</sup>

BRAND AUTOMATED SYSTEMS

## GeoTech<sup>®</sup> Recycled Film

### BENEFITS

The Recycled film is manufactured with a minimum 30% recycled content\*.

It is part of the GeoTech family of films, which provides environmentally-responsible packaging solutions that reduce landfill waste.

The Recycled film retains a high composition of the Standard Film, which ensures strength and durability while maintaining good clarity.

This material is available in clear and white. There are a range of other tinted colours available, minimum order quantities may apply.

Store in a dry area, temperature should be between 10-30°C. Not to be stored in direct sunlight.

Recycle Ready\*
