

High Clarity Film - PP

The High Clarity Film is a multi-layer cast polypropylene material specifically designed for excellent optical properties, seal strength and machinability.

The high transparency and gloss finish of this film makes it ideal for retail packaging, particularly for food applications due to its superior puncture resistance.

This material is available in clear and can be pre-printed in up to 8 colours.

Recyclability

This product is not currently recycled.

Storage

Store in a dry area, temperature should be between 10-30°C. Not to be stored in direct sunlight.

Technical Information

Compliance	ISO 9001:2015; ISO 14001:2015; BRC
Flexo graphic printing	Yes
In-line printing	Yes
Trim seal	No
Bag thickness	50 and 65µm
System compatibility	Autobag

Performance Data:	U/M	50µm	ASTM
Haze	%	31	D- 1003
Puncture Resistance (Dart)	grams	NA	NA
Tensile Strength MD	kN/mm ²	41	D- 882A
Tensile Strength TD	kN/mm ²	30	D- 882A

Chart reflects nominal test data values. Actual results may fluctuate due to inherent process variation. Test data and µm thickness reflect clear material only. Certain minimum purchase volumes may apply.

Markets served

- Retail
- Health & Beauty
- Confectionery
- Bakery
- Hobby & Craft

Optional Features

- Air Relief Hole
 - Full
 - Perforated
- Easy Open Perforation
 - Vertical
 - Horizontal
- Hanger Hole
 - Standard euroslot
 - Triangular euroslot
 - Hanger hole

* All features available subject to application
