BRAND AUTOMATED SYSTEMS

GeoTech Recycled Film - RC

BENEFITS

The Recycled Film is manufactured with a minimum of 95%* pre-consumer recycled content and delivers good durability.

The Recycled Film is part of the GeoTech family of films, which provide environmentally-responsible packaging solutions. The Recycled Film is a cost-effective alternative to other sustainable products when colour consistency is a secondary performance requirement.

This material is available in easily recognisable grey shades for end-user awareness.

STORAGE

Store in a dry area, temperature should be between 10-30°C. Not to be stored in direct sunlight.

Recycle Ready*

LDPE

OPTIONAL FEATURES

- Air Relief Hole
 - Full
